

SELENE 62 EXPLORER

CLASSIC OCEAN PILOTHOUSE YACHT

ULTIMATE SAFETY & COMFORT AT SEA

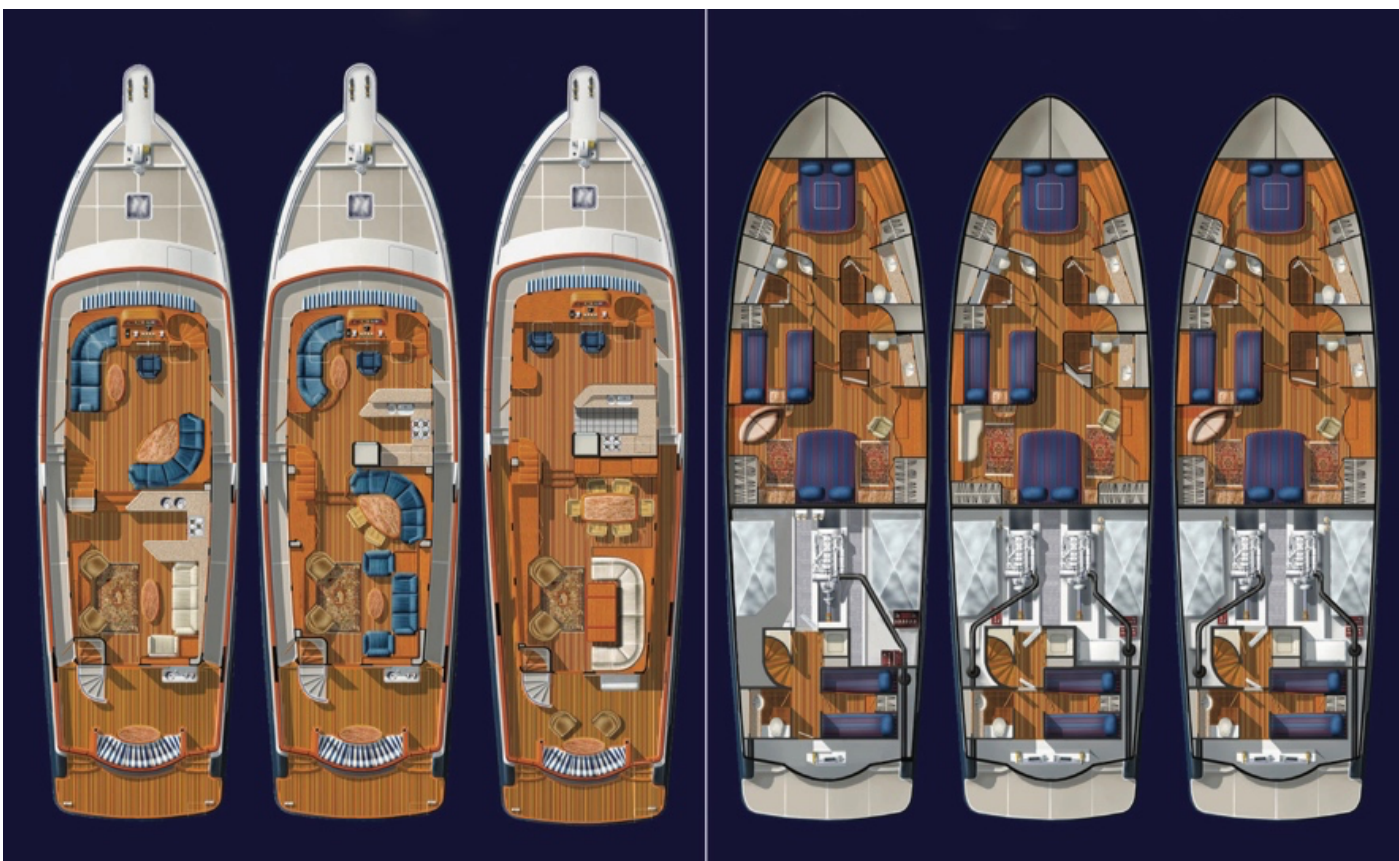

Howard Chen and the Selene Design Studio spent two years developing and manufacturing the tools and molds for this yacht. The Selene 62 brings together quality, comfort, and long range capability. The luxurious and practical layout consists of a superb three stateroom arrangement with crew quarters aft, all with ensuite heads. The owner enjoys a full-beam master stateroom complete with writing desk, vanity and full-height wardrobes. The pilothouse provides very good visibility, with two Diamond Sea Glaze Dutch doors to the Portuguese bridge and a dedicated stair up to the flybridge. The functional galley can be up in the pilothouse or down in the salon with a dining table for six. The very spacious flybridge, with U-shaped settee, table, sink and room for a BBQ makes a wonderful place to entertain. The yacht deck allows for a 14' tender with a powerful hydraulic crane. The bulbous bow increases waterline length which improves efficiency through the water. With a 2,200 gallon (9 842 Liters) fuel capacity, this CE Category A vessel is a full displacement ocean yacht providing a maximum range of 3000 nm. Selene 62 yachts can be seen all over the world from the Pacific Northwest to the Mediterranean Sea...

LOA: 68'-10"(20,98,M)	FUEL: 2,600 USG (9 842 l)
